

Welcome to Optum Perks

Consumers can save money on prescription medications at the pharmacy counter

The high cost of prescriptions can discourage consumers from taking their medications as directed. Optum Perks™ can help people afford the medication they need to live healthier lives.

What is Optum Perks?

Optum Perks is a service dedicated to delivering prescription discounts. Our 100% free coupons and discount cards can help you get major discounts on all FDA-approved medications nationwide. It's as easy as searching for your prescription, finding the location nearest you with the best price, and picking up your prescription at the pharmacy.

By negotiating lower medication costs with drug companies and pharmacies, Optum Perks can deliver lower costs and savings for consumers who do not have insurance or cannot afford their prescriptions. While insurance helps to lower the cost of medications most of the time, there are instances where a single drug's price is still high. And depending on a member's benefit status, the individual may choose to use prescription discount cards to augment their plan's pharmacy benefit.

Who can use Optum Perks?

Anyone. This card is not insurance, so no one can be denied because of age, medical history, residency status, or frequency of use.

Where is Optum Perks accepted?

Our cards and coupons are accepted at thousands of pharmacies nationwide, from the large chains to the local pharmacy around the corner.

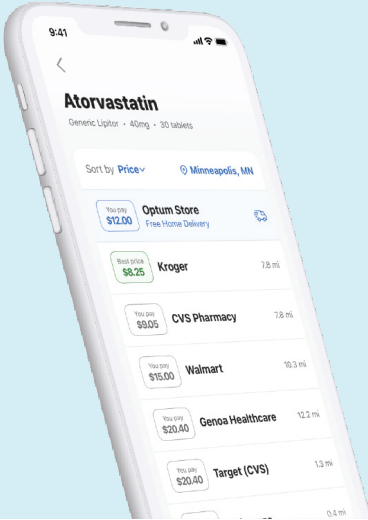

What medications are covered?

Consumers can use Optum Perks to receive discounts on most FDA-approved medications. The coupons and cards can also be used to save on prescribed medical equipment and non-prescription injections—such as flu shots or shingles shots.

Top prescription discounts

Optum negotiates discounted pricing with drug manufacturers on all FDA-approved prescription medications. Then we make those savings available to everyone, whether you have insurance or not.

Download the Optum Perks app

Now even easier for consumers to use. An app version is available for iOS and Android users under your specific client Group ID. You can get your own dedicated QR code* for employees/consumers to scan upon request.

- See prices by location with the map feature
- Search by medication
- Save coupons for future use and share with others directly from the app

At checkout, show the pharmacist your coupon on your phone, no card required!

How it works

The Optum Perks card/coupons are easy to use. The consumer will bring the coupon along with the prescription, hand it to the pharmacist, and save up to 80%* on prescription medications. The coupons and cards are ready to use immediately.

Every individual has unique health needs and challenges – including millions of uninsured, furloughed employees as a result of COVID-19, and seasonal workers who may have the need for an off-benefit solution. This is why we created Optum Perks.

Take your Optum Perks card to the pharmacy

Show it to your pharmacist every time you fill a prescription

Save up to 80% on prescriptions
